

King County

Landslide Hazard Drainage Areas Map

- Basin Boundary (thicker line designates areas with published Basin Plans)
- Urban Growth Area Boundary
- Incorporated Area
- Unincorporated Area
- Forest Production Zone Area

- Landslide Hazard Area
- Landslide Hazard Drainage

The boundaries of the landslide hazard drainage areas displayed on this map are approximate. Other areas not included in the mapped drainage areas may, in fact, drain over the landslide hazard areas shown. Where differences occur between what is illustrated on this map and actual site conditions, the actual site conditions shall govern. The offsite analysis, see Core Requirement #2, should assess whether the site drains to the landslide hazard areas shown. Projects outside of the Landslide Hazard Drainage Areas should refer to the Flow Control Applications map for determining the minimum level-of-protection required.

Department of Natural Resources and Parks
Water and Land Resources Division
